1. Identification

1.1 Product Identifier
Description
Ceramic shapes and parts manufactured from Mullite (Aluminosilicate).
Contains
Mullite (CAS 1302-93-8)
Synonyms
MV20, MV-HR1, MV30

1.2 Relevant identified uses of the substance or mixture and uses advised against
Recommended use
Consult the supplier
Uses advised against
Users are recommended to seek further advice

1.3 Supplier’s details
McDaniel Advanced Ceramic Technologies
510 Ninth Avenue
Beaver Falls, Pa 15010-0560

1.4 Emergency phone number
McDaniel
+1-724-843-8300

2. Hazards identification

2.1 Classification of the substance or mixture
GHS Classification
Not classified as hazardous

REGULATION (EC) No 1272/2008
Not classified

Classification according to Directive 67/548/EEC or 1999/45/EC
Not classified

2.2 Label elements
Symbol(s)
Not applicable

Signal word
None

Hazard Statements
None

Precautionary statements
In circumstances where dust may be generated from machining or disposal:
P261 – Avoid breathing dust/fume/gas/mist/vapors/spray
P280 – Wear eye protection/face protection
P285 – In case of inadequate ventilation wear respiratory protection
P305 + P351 + P338 – If in eyes, rinse cautiously with water for several minutes
P302 + P352 – If on skin, wash with plenty of soap and water

2.3 Other information
This product is an article, a monolithic material.
3. Composition/information on ingredients

3.1 Substances
This product is a monolithic material.

4. First aid measures

4.1 Description of first aid measures
In circumstances where dust may be generated from machining or disposal:

- **Eye Contact**: Rinse cautiously with water for several minutes. Remove contact lenses if present, and easy to do. Continue rinsing.
- **Skin Contact**: Wash skin with soap and water.
- **Ingestion**: Rinse mouth.
- **Inhalation**: Move to fresh air.
- **General Advice**: If symptoms persist, call a physician. Show this safety data sheet to doctor in attendance.

4.2 Most important symptoms and effects, both acute and delayed
No information available

4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician**
Treat symptomatically

5. Fire-fighting measures

5.1 Extinguishing media

**Suitable extinguishing media**
The product itself does not burn. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Extinguishing media which must not be used for safety reasons**
None known

5.2 Special hazards arising from the substance or mixture

**Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases**
Not applicable

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Avoid dust formation. Wear personal protective equipment when machining.

6.2 Environmental precautions
No special environmental precautions required.
6.3 Methods and material for containment and cleaning up
Recover product. Place into appropriate container for disposal.

7. Handling and storage

7.1 Precautions for Safe Handling
In circumstances where dust may be generated from machining or disposal:

**Handling**
Provide appropriate exhaust ventilation at places where dust is formed.

**General Hygiene Considerations**
Handle in accordance with good industrial hygiene and safety practice.

**Exposure scenario**
No information available

7.2 Conditions for safe storage, including any incompatibilities
Keep in a dry place.

7.3 Specific end use(s)
No information available

8. Exposure controls/personal protection

8.1 Control parameters

**Exposure limits**
Applies to circumstances where dust may be generated from machining or disposal.

I: Inhalable dust, R: Respirable dust, T: Total dust

**TWA (Time Weighted Average)**: The average level of exposure over a specified time period.

* Milligrams of substance per cubic meter of air
STEL (Short Term Exposure Level): The maximum exposure level permitted during a short period of time.

8.2 Exposure controls

Engineering controls
Ensure adequate ventilation in circumstances where dust may be generated from machining or disposal, especially in confined areas.

Personal protective equipment
In circumstances where dust may be generated from machining or disposal:
- **Eye Protection** Safety glasses with side-shields.
- **Skin Protection** No special protective equipment required.
- **Hand Protection** No special protective equipment required.
- **Respiratory Protection** When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Environmental exposure controls
Avoid dust formation

9. Physical and chemical properties

</table>

10. Stability and reactivity
10.1 Reactivity
None under normal processing

10.2 Chemical Stability
Stable under normal conditions

10.3 Possibility of Hazardous Reactions
None under normal processing

10.4 Conditions to Avoid
No known conditions to avoid

10.5 Incompatible materials
No incompatible materials known

10.6 Hazardous Decomposition Products
None under normal processing

11. Toxicological information

11.1 Information on toxicological effects
Note: The information provided solely pertains to dust exposure.

Acute toxicity
   Acute oral toxicity: Conclusive but not sufficient for classification
   Acute dermal toxicity: Conclusive but not sufficient for classification
   Acute inhalation toxicity: Conclusive but not sufficient for classification

Chronic toxicity
   Irritation: Conclusive but not sufficient for classification
   Corrosivity: Conclusive but not sufficient for classification
   Sensitization: Conclusive but not sufficient for classification
   Mutagenic effects: Conclusive but not sufficient for classification
   Carcinogenic effects: This substance has no evidence of carcinogenic properties
   Reproductive effects: Conclusive but not sufficient for classification
   Developmental effects: Conclusive but not sufficient for classification
   Aspiration hazard: Conclusive but not sufficient for classification

12. Ecological information

12.1 Toxicity
Not water endangering.

12.2 Persistence and degradability
The product is not readily biodegradable.

12.3 Bioaccumulative potential
The product is not bioaccumulating.
12.4 Mobility in soil
Not applicable, due to the form of the product.

12.5 Results of PBT and vPvB assessment
This product does not contain any PBT or vPvB substances.

12.6 Other adverse effects
None known

13. Disposal considerations

13.1 Waste treatment methods

Waste from residue/unused products
Disposal should be in accordance with applicable regional, national and local laws and regulations. Avoid dust formation.

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

Note: Not classified as dangerous according to transport regulations.

DOT (US) Not regulated
IMDG/IMO Not regulated
RID Not regulated
ADR Not regulated
ICAO Not regulated
IATA Not regulated

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Note: Regulations apply to dust.

United States Federal Regulations
OSHA Non-hazardous
TSCA Listed
CERCLA Reportable Quantity No
SARA Title III Section 302 Extremely Hazardous Substances: None
Section 313 Toxic Categories: None

United States - State Regulations
California Proposition 65 Not listed
Illinois Toxic Substances Disclosure to Employees List Not listed
Massachusetts Right To Know List Not listed
New Jersey Right To Know Hazardous Substances List Not listed
# Pennsylvania Right To Know Hazardous Substance
Not listed

# Texas Air Contaminant with Health Effects Screening Level
Not listed

## International Regulations
- **DSL/NDSL**: Listed on DSL

## 16. Other information including information on preparation and revision of the SDS
